Earn from BitConnect Coin Mining

As of Blockheight **262,800** on the BCC blockchain, **Proof of work mining (PoW) has ended.** New coin generation as well as transaction verification on the blockchain will be handled by Proof of Stake (PoS). You will not be able to mine BitConnectCoin with **CPU/GPU and only Stakers will be rewarded.** To learn more about Staking and Staking rewards click here.

BitConnect Coin(BCC) mining is the process by which new BitConnect Coin are generated. BitConnect coin can be mined with **CPU/GPU** and does not need an ASIC miner like Bitcoin does.

There are 2 ways you can mine BitConnect Coin as below:

1. Solo Mining BitConnect Coin (BCC)

Setup guide to mine proof of work(PoW) block.

2. Pool Mining BitConnect Coin (BCC)

Once you are ready to mine BitConnect Coin then it is recommended to join a mining pool. A mining pool are a large group of users who 'pool' their resources together to solve the mathematical solution (finding a block) and the rewards are distributed proportional to work sent to the pool.
